# ***Project overview: EuroVelo in Austria***

## **Present projects:**

- + *Route certification project (with ADFC)***
- + *Impulse project „Danube Cycle Route“ (frequency analysis, market survey, joint marketing), project „Alpe-Adria-cycle route“ (partly EV7)***
- + *new cooperation platform „Radland Österreich“ (-> hopefully the impulse for a future „EV coordination center“??) since 09/10***
- + *New national coordination „center“ in Ministry for Environment (but: main emphasis on „daily cycling“ (since 10/08)***
- + *New study on „economic impacts of the cycling industry“ (2009)***
- + *progress in signposting***

# Overview progress signposting „EuroVelo“

- + signposted until 06/2011
- NOT signposted: upper AUT, Carinthia

# Status EuroVelo-coordination in Austria

## The tasks of:

- **central, national Infopoint for EuroVelo-affairs** (EU-wide infos + national News..)
- **central liaison point among EuroVelo-Org, other national coordinators and country** (LTO´s, provinces, ministries, consultants..)
- **active networking**
- **Expert on national progress & developments**  
(=inkl active research + collection of news, projectinfos..)

..... **cannot be achieved satisfyingly** due to ...

- lack of “formal legitimation” through ECF and ...
- insufficient active information-flow on EuroVelo-progress (What is going on on the european level? Meetings in Austria? Projects in Austria – in my role as (voluntary) coordinator I do NOT get all relevant information “automatically”).
