# EuroVelo Media Pack

## Introduction

EuroVelo is the European cycle route network – a network of 16 long distance cycle routes that connect the whole continent.

Founded in 1995, the routes can be used by long-distance cycle tourists, as well as by local people making daily journeys.

The network is developed and coordinated by the European Cyclists' Federation (ECF) on the European level with a network of National EuroVelo Coordination Centres working to realise the routes on the ground.

# Cycle tourism is booming

According to a 2012 study commissioned by the European Parliament, there are an estimated 2.3 billion cycle tourism trips in Europe every year, of which 20.4 million include at least one overnight stay.

The study found that the average direct expenditure for multi-day cycle trips is just under €440 per person, per trip. In total, cycle tourism has a value in excess of €44 billion, which is higher than the European cruise ship industry.

The study estimated that when complete, the EuroVelo network alone will generate 60 million trips creating a total of €7 billion of direct revenue.

## Investing in EuroVelo

The routes that make up the network incorporate some of the most attractive and popular that the continent has to offer. Routes such as the Loire à vélo in France and the Danube Cycle Path through parts of Germany, Austria, Slovakia and Hungary.

EuroVelo provides a gateway for anyone wanting to cycle in Europe. The two main communication and promotional tools are the EuroVelo.com website and the EuroVelo Overview Map.

# Communication Tools

## EuroVelo Overview Map

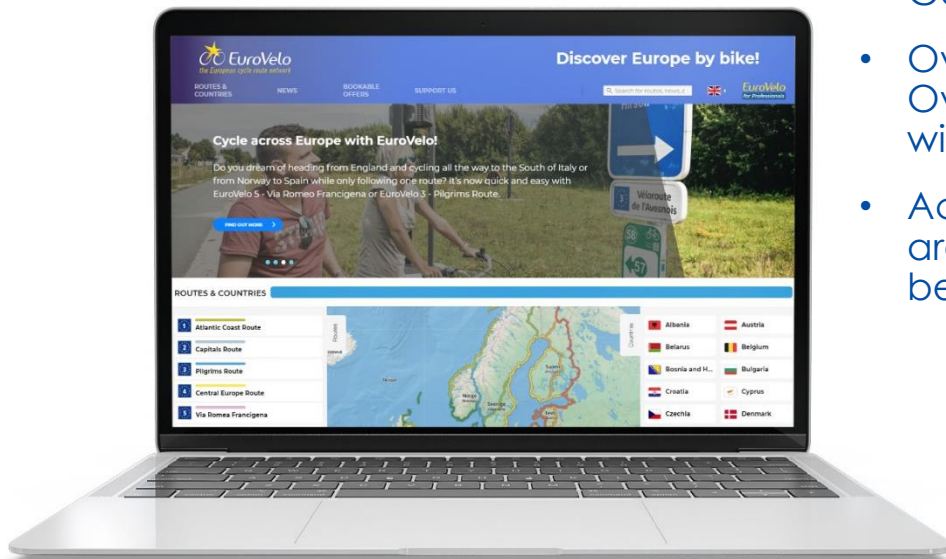

- A high quality overview map (scale 1:5,000,000) covering the entire European network, providing inspiration for people deciding where to explore next.
- The text of the EuroVelo Overview Map is in English.
- Over 110,000 copies of the two last edition of the map were eventually printed and distributed across Europe at conferences and other events (e.g. ITB Berlin, Velo-city).
- The new edition of the map will be available before the start of the 2020 season with an initial run of 40,000 copies.
- The new EuroVelo Overview map will be distributed across Europe via 22 different National EuroVelo Coordination Centres, Conferences and fairs (ITB, Velo-city, etc.)

# Communication Tools

## www.EuroVelo.com

- Overview website providing information for people wanting to explore Europe by bike.
- The website is available in English, French and German.
- Over 5 million page views on the EuroVelo Overview websites over the past year (2018) with an annual growth of over 26%.
- According to Google Analytics, 27.5% of visitors are aged between 18-24 and 33.5% are aged between 25-34, while 46% of visitors are female.
