

EUROVELO COORDINATION CENTER IN FRANCE

Camille THOMÉ

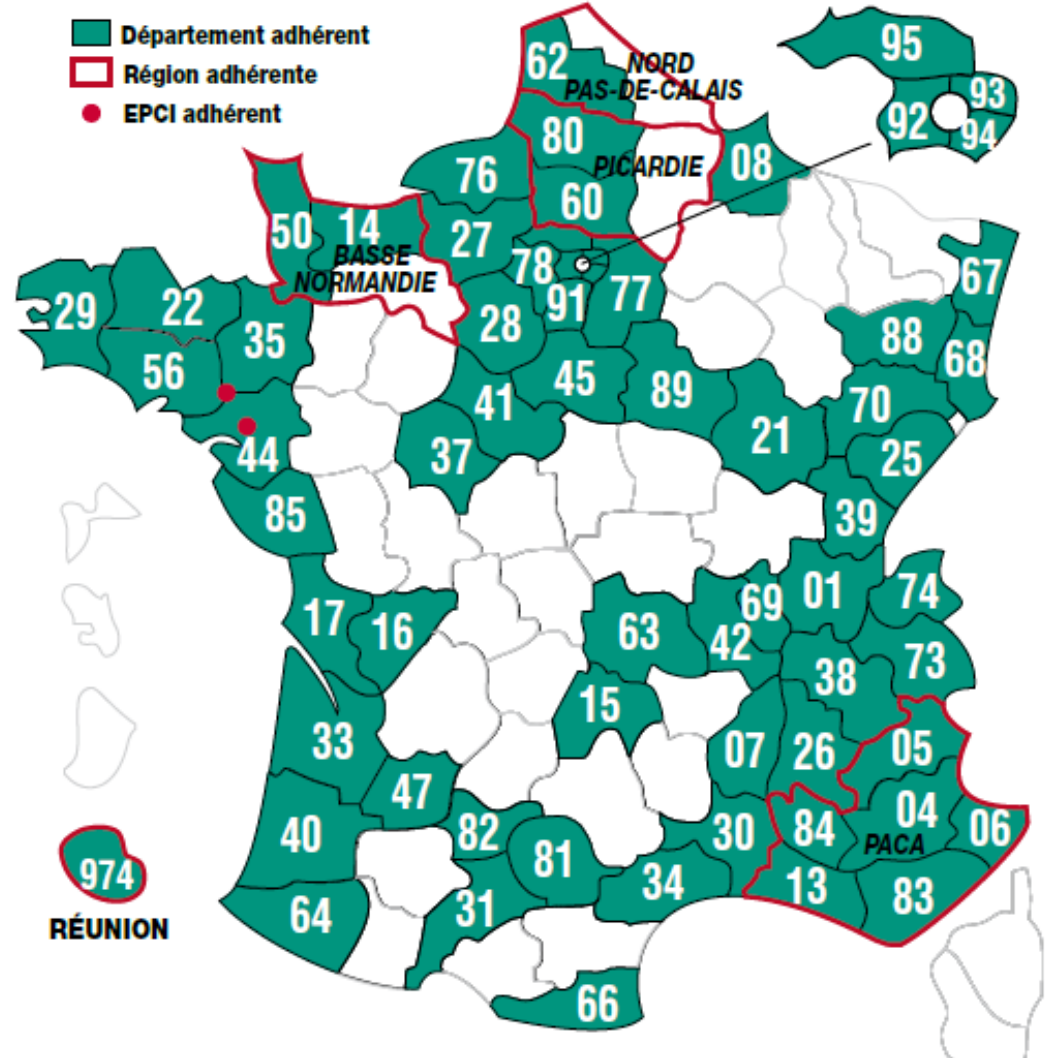

Les Départements et Régions cyclables

- ▼ Members : 68 local authorities
- ▼ A technical network

- ▼ AND a political network

The French cycle network / inspired from EuroVelo

The French cycle network / in 30 years

National network =
19 507 km
6 155 km of which are EuroVelo

+ 7 159 km of regional
networks

The French cycle network / Today

▼ 6 903 km exist
(35%)

Our tasks as EuroVelo Coordination center

- ▼ Ensure national partnership : users and Ministry of Ecology
- ▼ Speak and act in the name of all
- ▼ Handle the national GIS system : measure and map the cycle routes development
- ▼ Help for coordination between local authorities when needed
- ▼ Put people together, share information and projects

Our interest for being coordination center

- ▼ Manage the national cycle route coordination in a more professional manner
- ▼ The EuroVelo Network = an asset to the route = benefits to the national cycling development
- ▼ A real network of national coordinators will help : adjust the routes, the tools, do better (with less),
- ▼ Share common references => signposting, marketing, services, evaluation, etc.
- ▼ Help with EU financing, information and partnership

Routes « in process »

Routes already supported :

And more routes to come ...

THANK YOU
